Sir,

Ref.- G.O.No.2058, Public Health, dated 4th June 1938.

I have the honour to request that the Government will be pleased to extend the concessions given in the Government Order quoted above in the matter of anti-malarial measures to the Head constables and constables and their families and dependants in the following malarial places of the South Kanara district:-

Names of places.	Articles proposed for free supply

*The

* The supply of Mosquito repellant to the Police staff in Kollur and Hebri has already been sanctioned in G.O.No. Ms. 1950, Home, dated 11th April 1938.

The District Health Officer and the District Magistrate, South Kanara are of opinion that Beltangady and Kadaba are as malarious as Sullia and Kokkada where free supply of drugs, mosquito repellants and mosquito nets has been already sanctioned.

2. The financial effect of the proposal excluding the cost of drugs which will be supplied by the Public Health Department is as under:-

Initial cost.

	Rs. A. P.
58 Mosquito nets at Rs.2-10-6 each	154--1--0

Recurring annual cost.

	Rs. A. P.
Approximate cost of mosquito repellant.	60 0 0

The expenditure will be met from the appropriation under "29.c. Police - District Executive Force - A. District Police- I. Ordinary Areas - 5. Contingencies - Voted - Other charges".

I have the honour to be,

Sir,

Your most obedient servant,

NOTE BY THE ADMINISTRATIVE DEPARTMENT.

In August 1937, the Government sanctioned as an experimental measure for a period of six months a scheme for the control of malaria in the Bhadrachalam police station and police lines in the East Godavari district by spraying them with Pyrethrum insecticide and they directed the Inspector-General of Police to submit a report on the success of the scheme after the expiry of six months. In January 1939 the Inspector-General reported that the experiment had proved a success and that it might be extended to other police stations and lines situated in malaria-affected areas in the Agency tracts and in the districts of Malabar and South Kanara. The Government sanctioned the continuance of the experiment at the Bhadrachalam station and lines up to the end of 1939-40 and asked the Inspector-General to raise the question of continuing the experiment at Bhadrachalam in 1940-41 and of extending it to other malaria-affected areas as a Part II Scheme for 1940-41. Accordingly the Inspector-General has proposed that the scheme may be continued at Bhadrachalam as a permanent measure and that it may be extended to other police stations, outposts and lines situated in the malarial tracts in this Province. It is proposed to spray the insecticide only during the six malarial months of the year.

The financial effect of the proposal is a non-recurring expenditure of Rs. 57-8-0 and a recurring expenditure of Rs. 2,150 per annum, as shown in the summary at the beginning of the note. This department recommends the inclusion of the necessary provision in the Budget for 1940-41.

A. R. MACEWEN—1-11-39.

NOTE BY THE FINANCE DEPARTMENT.

The proposal may be considered as a Part II Scheme for 1940-41.
